FORREST H. ANDERSON
GOVERNOR

BRINTON B. MARKLE
DIRECTOR

IN REPLY REFER TO:

SEP 13 1974

SEP 13 1974

TO: All Law Enforcement Agencies

FROM: Brinton B. Markle, Director BBM

SUBJECT: Arrest Register Summary

Caution must be used when analyzing the following data. This data represents arrests, not crimes committed or reported to police agencies. One cannot readily assume that because arrests take place at a certain time, or on a certain day, that crimes peak at those same times. Additional data are required to justify that type of conclusion.

Furthermore, the Crime Control Commission releases this data with the understanding that some inaccuracy exists. While statistical analysis of human events is never totally accurate nor 100 percent comprehensive, this is particularly true with new programs. Arrest register data will be more accurate as the program becomes more familiar to those reporting for it.

A total of 27,490 arrests were made in 1971 of which 4,431 were felony charges and 23,059 were misdemeanor complaints.

Offenses against property amounted to 37 percent of the total felonies. Burglary was the most common property offense amounting to 804 arrests followed by 587 grand theft arrests and 234 auto thefts. Personal violence offenses totaled 19 percent of all the felonies with 654 aggravated assaults accounted for the largest number of arrests in this category followed by 84 robberies, 56 forcible rapes and 43 homicides. Other felonies such as checks, drugs, weapons, Federal offenses etc. accounted for the remaining 44 percent of the felony arrests.

Disturbing the peace and alcohol associated arrests accounted for 60 percent of all the misdemeanor arrests.

MONTANA STATE LIBRARY
930 East Lyndale Avenue
Helena, Montana 59601

Juveniles accounted for 23 percent of both felony and misdemeanor charges. Sixty-seven percent of those charged with felonies were 25 and under and 53 percent charged with misdemeanors were 25 and under.

Females were arrested most often for fraudulent checks and larceny charges, but accounted for only 11 percent of the total felony arrests and 15 percent of the misdemeanor charges.

The Indian minority accounted for 15 percent of the felonies and 35 percent of the misdemeanor arrests.

August was the most active month accounting for 11 percent of both felony and misdemeanor arrests and Friday and Saturday were the most active days for arrests.

Seventy-four percent of all persons charged with felonious crimes were jailed with 12 percent released on bail and 14 percent released on their own recognizance. This complies with the misdemeanor arrests in which 65 percent were jailed, 22 percent released on bail and 13 percent released on their own recognizance.

We do hope that this data will be useful to the law enforcement community, and we will strive to make these reports more accurate and useful as our experience with it increases. In addition, individual law enforcement agency reports will be sent out in the near future.

TELEPHONE NO. 449-3604

February 1, 1972

FORREST H. ANDERSON
GOVERNOR

BRINTON B. MARKLE
DIRECTOR

IN REPLY REFER TO:

TO: All Sheriffs - Chiefs of Police

FROM: Bill Erwin, Chief - Bureau of Criminal Statistics

SUBJECT: Arrest Register Data

A copy of the first computer tabulation of Arrest Register data is enclosed. While these statewide statistics are extremely useful in analyzing our crime problem and evaluating our law enforcement effectiveness, this report contains some inaccuracies which we hope to eliminate from future reports.

Our reports can be only as accurate as the information you report to us, so please keep the following points in mind in filling out your arrest report.

1. Fill out all areas of the Arrest Register. i.e., age, race, sex, status and disposition of arrestee. Unknown ages caused a particular problem in the first report as the computer grouped all unknown age data into the 11 and under age category. If the age of an arrestee is unknown estimate it.

2. Breakdown drug charges into specific groups. Rather than using the non-specific "drugs" state the type of drugs, i.e., possession or sale of marihuana, hashish and type of pills. If the disposition is misdemeanor we will assume a first offense of possession of less than 60 grams of marihuana or 1 gram of hashish.

3. Explain juvenile arrests by specific charge.

4. For our purposes we do not include parking meter violations, dog ordinances, watering ordinances, minor traffic, sleeper, intransit holds, or insane persons who have committed no criminal offense in the statistics. However, you may want to include these offenses on the arrest register to supplement your records which is fine. Should you have reason to question any of these statistics, please notify this office.

5. Return the white copy of the Register to us instead of the yellow copy. The yellow is sometimes difficult to read and does not reproduce clearly on the copy machine.

6. In addition, please send your Arrest Register to this office by the 10th of each month.

Adherence to these guidelines will help us improve the accuracy of future reports.

For 1972, the Bureau of Criminal Statistics plans to publish arrest data on a quarterly basis. In addition, the names of each person arrested is being accumulated into a statewide Name Locator File for your use after a "No Hit" occurs with NCIC and CII.

Should you have any questions or suggestions please do not hesitate to contact this office.
